Comes now the Plaintiff, Jonathan Lee Riches a/k/a IRVING Picard, I face
imminent danger and bodily harm from the Defendants who plan to publish me and
about my life in their books without my authorization or consent, on Jan 1, 2009 the
Guinness Book of World Records sent me a congratulations letter stating I have a
World Record in filing the most lawsuits in the history of mankind, their letter stated
I've filed more than 3,000 lawsuits in Federal courts and over 2,500 lawsuits in local &
state courts, further stating I shattered the previous record of the Rev. Clouis Carl Green.
The Guinness Book of World Records told me they plan to publish my record and lawsuits
in their 2010 Edition which comes out in October, they plan to invade my privacy by posting
my Bureau of Prison's mugshot along with personal information including my social security
#, birth date, height, weight, eye color, and home address, telephone #, and where I'm
illegally incarcerated at, at the Federal medical facility in Lexington Kentucky, I sent
the Guinness Book of World Records 10 letters from Jan 5, 2009 through 5/1/09

telling them no thank you, I don't want to be in a record book because the facts are wrong. I've filed more than 4,000 lawsuits worldwide in other countries courts, the Hague, world court, The ICC; The Defendants are slandering my name by calling me "the litigator crusader", "Duke of lawsuits", "Jonny sue-nami", "Sue-per-man", "The Patrick Ewing of suing", "the lawsuit Zeus"; these phrases hurt my feelings and violates my civil rights, I've filed so many lawsuits with my pen and right hand that I got Arthritis in my fingers, numbness in my wrists, crooked fingers, I got bags under my eyes for sleepless nights suing the world, I get an average of 25 pieces of legal mail a day from courts, lawyers, stalkers, fans, etc. I've been printed in lawbooks throughout the world without my consent or permission. I'm thinking about retiring from writing lawsuits for a while and give my fingers rehabilitation, and I've been persecuted to the fullest by Judges who are denying me due process and access to the courts to express my grievances and my fundamental 1st amendment right to the courts. Defendants caused me grief and mental breakdowns, that's why I went from FCI Williamsburg to a Federal medical center in Lexington Kentucky to get mental health treatment, I eat, sleep, and think lawsuits, I flush out more suits than a sewer. I've sacrificed my time, dignity, and prison trust account filing lawsuits. My accounts are frozen, I can't buy stamps, food, or hygiene on commissary. Thankfully I'm surrounded by sympathetic inmates who are providing me with stamps to send out legal mail, I enter the RDAP drug program this summer, upon completion, I get a year off my sentence, that means I will be in a 1/2 way house by next summer and when I get out of prison I'm going to start a lawsuit 101 shop and teach Americans how to file prose lawsuits. I will sell Jonathan Lee Riches T-shirts "watch what you do, or I'll sue you" with my face in the middle pointing, The Guinness book of world records have no right to publish my work, my legal masterpieces. The Defendants sent me threatening letters because I sued "Riches v. Black history month" in Iowa, and President Admin Adm Jct of Iran filed a Amicus in that case, also got screamed at for filing "Riches v. I can't believe it's Not Butter" and "Riches v. convicted child molesters", I'm in danger, and I seek a restraining order against the publication of my name, I pray for relief.
